To the Whitewater Township Board
and Attending Residents
October, 2014

We, the staff at Whitewater Township Park, would like to publicly and sincerely thank Cheryl Goss for all the daily volunteer hours she has spent teaming with us to operate the park. She has been an integral part in the design and enforcement of new and old policies. Her technological skills have been an invaluable resource with the roll-out of our new on-line reservation system, as well as other new technology integrated into park operations. Cheryl continually listens, observes and evaluates the physical needs of our facility, and does everything in her power to make improvements a reality. Finally, and most important, her people skills have made all of us feel valued and motivated to work beyond the requirements of our positions.

Cheryl may not have asked or earned a salary for her leadership skills this summer, but she has earned the trust and respect of the staff at Whitewater Township Park, of which we are all grateful.

Whitewater Township Staff
